**GFCF Mission:** GFCF advocates for policies and programs that support a healthy equitable and economically viable food system. We seek to:

- Create access to and understanding of the foods that promote health;
- Educate the public about our regional food system; and
- Foster collaboration and build capacity among all sectors of the local farm-to-table network (consumers, distributors, government, growers, non-profits, retailers, processors, and waste recyclers.)

**GFCF Vision:** We envision a vibrant local food economy that supports access to affordable, healthy food in every neighborhood.
